LANDSCAPE SCHOOLS EXHIBITION
ETSAB

Since its first edition, the **European Landscape Biennial** has expressed its desire to intently study and discuss landscape interventions, as much from the perspective of landscape architecture as from other disciplines linked to its study and evolution. From 2014, the European Biennial Landscape turned itself into **International Biennial of Landscape Architecture**, including in the debate landscape realities of all over the world. Next September, with its ninth edition "**TOMORROW LANDSCAPES**" the symposium will take place in the Petit Palau de la Música for three days and will include talks, presentations by those finalists competing for the Rosa Barba Landscape Prize, papers, roundtable discussions, exhibitions and samples from which we will be able to track and discuss the evolution of landscape architecture worldwide.
